PROFESSIONAL SUMMARY

Flutter Developer with 3+ years of experience building and releasing Android and iOS applications across mobility, food delivery, e-commerce, and health. Developed Fomo Cabs and Fomo Corp at Zopflix and contributed to 10+ cross-platform apps at Laysan Technologies. Skilled in Flutter, Dart, state management, Firebase, and API integrations, with a focus on maintainable architecture, responsive interfaces, and reliable app releases. Uses Codex and Claude for planning, coding, debugging, UI exploration, and reviews, with developer-led decisions and verification.

TECHNICAL SKILLS

Development: Flutter, Dart, Android & iOS, responsive UI, MVC / MVVM, offline-first architecture, local data caching

State management: Riverpod, Provider, GetX

Backend & integrations: REST APIs, Firebase, Supabase, SQLite, Google Maps, Razorpay, Bluetooth

AI tools & workflow: Codex, Claude; feature planning, architecture exploration, code generation, refactoring, debugging, UI exploration, and code review

Delivery: Git, GitHub, CI/CD, Google Play & App Store publishing, release management

PROFESSIONAL EXPERIENCE

Flutter Developer Mar 2026 – Oct 2026

Zopflix (Shipra Travels)

- Completed Flutter development for Fomo Cabs, a consumer cab-booking app, and Fomo Corp, a corporate mobility app; both are available on Google Play and the App Store.
- Built cross-platform interfaces and mobility workflows covering cab booking, maps, and ride-tracking experiences.
- Integrated application services and structured maintainable UI and state-management code for consistent Android and iOS experiences.

Flutter Developer Mar 2023 – Feb 2026

Laysan Technologies Pvt. Ltd.

- Developed and maintained 10+ Flutter applications across food delivery, e-commerce, health, and other client products.
- Integrated Firebase authentication, analytics, and push notifications alongside REST APIs and third-party services.
- Implemented Riverpod, GetX, and Provider for state management; refactored legacy code and resolved compatibility and performance issues.
- Managed Android and iOS releases, including Google Play and App Store submissions and ongoing app updates.

SELECTED PROJECTS

Tastes2plate — 100K+ downloads — Intercity food-delivery app with payment and maps integrations.
Google Play | App Store · Flutter, GetX, Razorpay, Google Maps

InteriorChowk — 10K+ downloads — Shopping platform for architects and interior designers.
Google Play | App Store · Flutter, Provider, Razorpay, Google Maps

Fomo Cabs — Consumer cab-booking app with rider discovery, booking flows, and maps.
Google Play | App Store · Flutter, Dart, Provider, Google Maps

Fomo Corp — Corporate transport app supporting employee commute coordination and ride tracking.
Google Play | App Store · Flutter, Dart, Riverpod, Maps

RucJa — Health-monitoring app with Bluetooth integration.
Google Play | App Store · Flutter, Riverpod, Bluetooth

EDUCATION & LANGUAGES

Bachelor of Computer Applications · Baddi University, Himachal Pradesh · 2019–2022

Languages: English, Hindi
